SUMMARY

Point 2	<p>Working groups enter the phase of being fully operational. WG1 and WG2 are going to kick off in the upcoming days (WG 1-28.03. and WG 2-5.04.) – the invites to SRG members and their alternates which indicated their interest in joining these WGs have been already sent. WG3 had already initial discussions how to plan the work – the invites will be sent after the Easter break.</p> <p>The initial discussion how to structure the work of WG4 will take place after the Easter break. SRG Members can expect follow up emails from the respective WGs.</p> <p>If you would like to join any of these WGs, please contact directly WGs leads – the current division of SRG Members across the WGs is available on extranet.</p>
Point 3	<p>ENTSOs presented a demo of the data visualisation tool for the 2024 data, and first comments were shared by the SRG Members.</p> <p>There is a possibility to share further feedback to the tool, as it was uploaded on extranet under this link.</p> <p>If you have any comments or remarks, please contact directly ENTSOs. Deadline for sharing feedback is 5.04. (EoD).</p> <p>Please note that the data included in the current version of the visualization tool is only a draft and will be corrected.</p>
Point 4	<p>All information required to join the SRG has been sent to the European Storage Association (EASE).</p> <p>Additionally, a think tank Open Energy Transition, has also expressed their interest as the new potential SRG Member. All relevant information to join the SRG, was shared with them as well.</p>
