## SUMMARY

Point 2	<p><b>WG1:</b> On 15.5.2024 the ENTSOs presented their current findings on different options of the consideration of economic variants in the scenarios. The WG started discussing this and will continue in the next meeting.</p> <p><b>WG2:</b> On 29/5 there will be a workshop on the EV modelling and a meeting with the members of the demand working group within the ENTSOs. The collection of reference data is ongoing.</p> <p><b>WG3:</b> In a meeting on 17.5.2024 the group discussed data requirements and potential changes in the tools for identified priority areas: hydrogen, storage, heat pumps and demand response, and commodity prices. WG3 and WG2 leads will convene to co-ordinate work on heat pumps.</p> <p><b>WG4:</b> No updates.</p>
Point 3	<p>The TYNDP 2024 scenario results are being uploaded to the website and will be publicly available on 23.5.2024 at the latest.</p> <p>The ENTSOs decided to organize the public workshop on the TYNDP 2024 results and the outlook for the TYNDP 2026 process on 4.7.2024. The agenda for the workshop is not decided yet. It will be a full day. The European Commission, ACER and the SRG will be invited to present comments.</p>
