16.00-16.30	<ol style="list-style-type: none"> 1. Welcome 2. Updates from the working groups 3. Update on the tracking tool 4. Access to Sharepoint – update (ENTSOs) 5. AOB
-------------	---

Summary

Point 2	<p><u>WG1</u>: SRG members are invited to comment on the draft Innovation Roadmap shared by ENTSOs. Members can leave general comments, or comment directly into the ENTSOs' document or excel file. An aggregated feedback is planned to be delivered to the ENTSOs until the deadline on September 20th 2024. No voting process will be initiated as the timeline is too short – only red flags could be raised. The ENTSOs plan to publish the Innovation Roadmap in mid-October. It will consist of 2 parts: first, the innovations that will be implemented in the 2026 cycle and second, the topics to be possibly implemented in the 2028 cycle. The Roadmap is considered as a living document with regular updates. The innovations for the 2026 cycle are planned to be discussed in April 2025.</p> <p>Economic variants workshop is planned for the September 24th 2024 in a hybrid form. Members are invited to register and join.</p> <p><u>WG2</u>: A recommendation for EV modelling was distributed to the SRG members for comments. The recommendations will be integrated into the Innovation Roadmap feedback. For the reference heating data, a meeting is planned with the ENTSOs and ETM specialists. The SRG would also ask DG Ener if any heating data are available due to the preparation of the update of the European reference scenarios.</p> <p><u>WG3</u>: The organisation for the next meeting is under way.</p> <p><u>WG4</u>: The next meeting takes place together with the ENTSOs on 18th September 2024. A list of the topics to be discussed is in preparation.</p>
Point 3	<p>To track the SRG recommendations and how they were taken into consideration by the ENTSOs an excel file was compiled. The file can be found on the sharepoint in the folder of the "Protocols". The file shall be discussed with the chairs of the Working groups and the ENTSOs.</p>
Point 4	<p>Access granting to Sharepoint for new SRG members/alternates is ongoing and almost completed.</p>

Actions	Follow-up and Responsibility
Add comments/Feedback to the Innovation Roadmap documents by 17 th September (noon).	To all members, the files are on the Sharepoint
Register for the workshop on the economic variants on 24 th September 2024	To all members, the meeting is in hybrid form either at the ENTSOG premises or on Teams
