Bram Claeys	RAP

## Agenda Points

## STAKEHOLDER REFERENCE GROUP FOR THE TYNDP SCENARIOS

16:00-16:30	<ol style="list-style-type: none"> <li>1. Welcome</li> <li>2. Update from the work on SRG opinion on 2026 TYNDP Scenarios (all WGs)</li> <li>3. SRG tracker (ENTSO-E)</li> <li>4. AOB</li> <li>5. Presentation of the Open-TYNDP project (OET)</li> </ol>
-------------	---

### Summary

Point 2	<p>Meeting on 3/2 to discuss the drafting of the SRG opinion document. Working group chairs to take ownership of following up on respective open points. Meeting between convenors and working group chairs on 6/2.</p> <p>Draft of the opinion will be shared with the ENTSOs to check if there are important missing pieces. In parallel SRG members can review the full draft. Deadline depends on review of NT+ results and economic variants (see point 3). ENTSOs started working on benchmarking, but not advanced yet. Will be shared with SRG when ready.</p> <p>No public consultation planned anymore of the scenario package. Core team to consider whether to hold one.</p>
Point 3	<p>Sharing of NT+ results by ENTSOs delayed. No clear date yet. Consultation period length stays the same – 3 weeks.</p>
Point 4	<p>No clarity yet on whether public workshop will be planned to kick off 2028 cycle. This will be discussed in the upcoming weeks.</p>
Point 5	<p>Presentation by Martha and Daniel of OET on Open-TYNDP project, a collaboration between OET and ENTISOE. Goal is to test PyPSA's capabilities by reproducing aspects of 2024 TYNDP studies. The overall goal is to develop and complementary open-source planning tool for modeling efforts within TYNDP using the PyPSA Europe workflow.</p> <p>Status can be followed on <a href="http://open-tyndp.readthedocs.io/latest/">http://open-tyndp.readthedocs.io/latest/</a> .</p> <p>Plan is to finish the project in 2026.</p>

Actions	Follow-up and Responsibility
Follow up on open points on draft opinion about 2026 cycle.	WG chairs
Clarify whether to hold public workshop for start 2028 cycle.	ENTSOs
Upload OET presentation to Sharepoint.	Daniel Ruedt
