Agenda Points

16.00-16.30	1. Welcome and announcements 2. Update from the Demand and Flexibility Task Force 3. Upcoming presentations and knowledge-sharing sessions 4. Stakeholder Engagement Plan
-------------	--

STAKEHOLDER REFERENCE GROUP FOR THE TYNDP SCENARIOS

5. Methodological workshop and SRG task forces
6. AOB

Summary

Point 2	Demand and Flexibility Task Force Michal (Gasnet) updated SRG members on the first meeting of the Demand and Flexibility Task Force, held on 11 August 2026. The Task Force has started discussing the relevant demand and flexibility topics. Members considered that further methodological input from the ENTSOs, potentially through a dedicated methodological workshop, would be useful before the Task Force progresses further. Interested SRG members were encouraged to join and contribute to the Task Force.
Point 3	Upcoming presentations and knowledge-sharing sessions SRG members were informed about the upcoming key presentations foreseen for the next meetings. All SRG members were encouraged to propose and deliver knowledge-sharing sessions, independently whether they are leading a Task Force or not. The aim is to draw on the broader expertise represented within the SRG.
Point 4	Stakeholder Engagement Plan Members were reminded to review the Stakeholder Engagement Plan and provide comments and suggestions. In the upcoming weeks there will be a dedicated SRG Task Force meeting to discuss the inputs.
Point 5	Methodological workshop and SRG task forces The ENTSOs were asked for a possibility of organising a methodological workshop for the SRG. The ENTSOs confirmed that a workshop should be possible, although the date had not yet been determined. The ENTSOs asked for the names of the Task Forces being established within the SRG so that the methodological workshop could, where possible, be planned around the areas on which the SRG intends to work. Currently the following task forces or workstreams were envisaged: • Demand and Flexibility Task Force • Stakeholder Engagement Task Force • A provisionally named Baseline Task Force, dealing with the toolchain • A dedicated task force on the gap-filling methodology might also be needed. Further task forces could emerge following the methodological workshop, depending on the interests and expertise of the SRG members.

STAKEHOLDER REFERENCE GROUP FOR THE TYNDP SCENARIOS

	ENTSOs requested clarification on the intended scope of the provisionally named Baseline Task Force. Its scope and naming would be clarified after further discussion between convenors and Machteld (TU Delft).
